# Our Business Services

## Contractor Management Outsourcing

Entity Solutions can engage contractors on behalf of your organisation. Our technology offers bespoke delivery and we can meet any customer requirement. We take care of all statutory, regulatory ownership and management.

## Workforce Management Technology Solutions

Our technology services and system integration expertise are available as standalone solutions. From customised payroll software to cloud workforce management systems, our SaaS products offer the efficiency required to automate the procure to pay process.

## Managed Vendor Services

We provide Managed Vendor Services (MVS) to organisations requiring a post-recruitment contract workforce management solution. Gain greater control and transparency in relation to your contract workforce and simplify your management of third party vendors.

## Payroll Financing

We offer Payroll Financing services with a significant funding capacity to ensure contractors are paid on time and without fail, according to the agreed payment cycle.

## Outsourced Payroll

Our Outsourced Payroll service includes payroll calculations, leave management, statutory obligations and even employee benefits. We will ensure that the process runs smoothly, with full compliance.

## Migration Services

We offer Migration services for companies and individuals seeking sponsorship for employment purposes. We assist directly with our in-house team or our expert partner to ensure all employment passes, working visas are obtained.

## Talent Management

We can create bespoke solutions which include talent management, talent pooling and benchmarking. Entity has the resources and expertise to give your business the competitive edge when it comes to attracting and retaining talent.

## Statement of Work

We can tailor a Statement of Work to your needs, working with both the business and contractor to define expectations for a specific project. We provide a summary of work to be delivered, outlining particular milestones.

## Contractor Experience

We have a range of services available to contractors, designed to take the stress out of their contractor obligations and to support their financial and professional development goals.
